ABOUT PETROSEA

PT Petrosea Tbk. is a multi-disciplinary mining, infrastructure and oil & gas services company with a track record of achievement in Indonesia for over 47 years. Drawing on rich and varied years of experience throughout the Indonesian archipelago, Petrosea is now recognized as one of Indonesia’s leading contractors. We offer a competitive advantage through our ability to provide complete pit-to-port mining solutions, integrated engineering and construction capabilities as well as logistic support, whilst demonstrating absolute commitment to health, safety & environment, quality management and business integrity. We also provide services for the oil & gas industry in Indonesia through our Petrosea Offshore Supply Base (POSB) deep-water supply base located in Sorong, West Papua that consistently delivers international standard and cost-effective services to all of our clients.

Established in 1972, Petrosea is committed to adhering to sound principles of corporate governance and has adopted corporate governance practices that support the effective functioning of our Management and all elements as a public listed company. By applying the principles of good corporate governance, we ensure that our company is accountable, independent and transparent for both our internal and external stakeholders.

Petrosea has been listed on the Indonesia Stock Exchange (IDX: PTRO) since 1990 and was the first publicly listed Indonesian engineering and construction company in Indonesia.

Petrosea is supported by its main shareholder, PT Indika Energy Tbk., an integrated Indonesian energy company, providing its customers with integrated energy solutions through its complementary investments in the areas of energy resources, energy services and energy infrastructure.

VISION
To be a leading service provider in mining, oil & gas and infrastructure in South East Asia.

MISSION
To deliver innovative solutions for mining, oil & gas and infrastructure to the satisfaction of all clients and stakeholders.

MILESTONES

1972
Incorporated in Jakarta, Indonesia as PT Petrosea International Indonesia.

1984
Acquired by Clough Limited, Australia.

1990
Listed on the Jakarta and Surabaya Stock Exchanges (now Indonesia Stock Exchange) as PTRO, with the Company name changed to PT Petrosea Tbk.

1990
Acquired by PT Indika Energy Tbk., owning 96.55% of the Company’s shares by year end.

2009
PT Indika Energy Tbk. reflated 28.75% shares to the public and at the year’s end holds 69.80% share ownership in the Company.

2012

2015
Officially inaugurated as a Bonded Logistics Center (PLB) located in Tanjung Batu, Balikpapan, East Kalimantan.

2016
Officially inaugurated Petrosea Offshore Supply Base (POSB) Sorong to provide support and services for the oil & gas sector in the eastern Indonesian region.

2017
The Company signed a Transfer of Rights Agreement for Shares of PT Kuala Pelabuhan Indonesia in the amount of 380,000 shares from PT Indika Logistic & Support Services.
At Petrosea, Safety, Health & Environment is one of our core values which is embedded within each employee when conducting all activities through a structured system to manage all risks in order to achieve our ultimate goal of “Zero Harm to People, the Community and Environment”.

We are strongly committed to ensure the implementation of all related legal and other requirements, and the continuous improvement of our Safety, Health & Environment Management System. We also strive to prevent damage and achieve safe, efficient and productive operations.

Petrosea’s commitment towards safety was given the highest recognition by the Ministry of Energy and Mineral Resources (ESDM) after in 2018 we were presented with the ADITAMA award for Mining Safety Management System.

At Petrosea, we believe that our talent is our key asset to be successful in the industry. We continue to develop our best talent in order to demonstrate their best potential. At the same time, we keep setting high standards in attracting and retaining our people to be a champion in the industry. To date, Petrosea has achieved a successful track record in grooming talent within the industry and providing a wealth of experience in developing harmonious employment relationships. This becomes our main priority and we will continue to focus on achieving and developing this through our human capital management strategies.

- **Employee Development Program**
  We develop a systematic development program to ensure consistency in developing future leaders in the Company
  - Graduate Development Program
  - Supervisory Development Program
  - Leadership Development Program

- **Technical Training Program**
  We ensure we have standardized technical capabilities to maintain our quality of work through our Training Centre located at Petrosea Support Facilities (PSF)

- **Learning & Development**
  We continuously develop employee soft and technical competencies, supported by our learning center, Petrosea Academy (PetA)

- **Reward System**
  We value a transparent, motivating, equitable and consistent system to promote employee value
Quality Management's main priority is to fulfill our client's needs and build strong relationships to add value to their operations. We focus on delivering value to all of our clients by implementing our Petrosea Quality Management System (PQMS). Fundamental business processes reside within this integrated PQMS system to meet the requirements of operations, quality and Health, Safety & Environment.

We are committed to achieving the requirements set out in ISO 9001:2015 and continuously improve our services, systems and processes. This will be accomplished through:

• Establishing and implementing the PQMS framework and associated documentation aimed at satisfying the ISO 9001:2015 as well as client requirements.
• Applying the Company’s quality management system consistently across all operations and participating in the audit process to ensure that improvement processes are implemented within satisfactory timeframes.
• Pursuing and implementing any possible improvements in own areas.
• Promoting the use of a process approach and risk-based thinking when reviewing the effectiveness of the quality management system and assessing opportunities for its continuous improvement.
• Ongoing improvement process based on use of factual analysis data in order to make informed and effective decisions as well as develop employee skills and competencies to improve the Company’s performance.

As one of our core values, Petrosea retains a high level of commitment towards the implementation of Corporate Social Responsibility (CSR) programs and activities that focus in four areas:

- Education
- Health
- Economic Empowerment
- Environment

All CSR programs carried out by Petrosea are directed towards improving the quality of life of local communities and environmental conditions at all areas surrounding the Company’s operations as well as our employees and their families.

Petrosea continues to develop sustainable CSR programs that will bring benefits to all of our stakeholders.

CSR program highlights:

- Kelompok Usaha Bersama (KUBE) Bottom Plug empowerment
- Waste recycling group empowerment
- Contribution of school utilities
- Scouts development program
- Story telling training program
- Food provision program
- Circumcision program
- Free health checkups & medication
- Tourist Village development
- Rain tree & Matoa tree planting program
With over 47 years of experience in Indonesia, Petrosea has in-depth knowledge of the evolution of Indonesian mining industry, embracing new technologies, has strong technical and engineering capabilities to meet and exceed customers' expectation.

Petrosea differentiates its contract mining services from its competitors by offering integrated mining solutions tailored to the requirements of each project, supported with a wide range of complementary engineering and construction services.

Petrosea's mining team works closely with its clients each step of the way to ensure a long-term plan approach to operations. Petrosea is supported by experienced staff with local knowledge and ingenuity, enabling us to provide cutting edge solutions delivered with reliability, optimum productivity and cost effectiveness.

Petrosea offers a wide range of project services from pit to port, including:

- Open pit contract mining services
- Coal transportation services
- Stockpile management
- Mine project management services
- Technical services, mine planning and mine optimization
- Civil & infrastructure construction, including roads, tailings dam and site utilities
