I. BACKGROUND

The initiative to form the Audit, Risk and Compliance Committee (previously Audit and Corporate Governance Committee) demonstrates the commitment of PT Petrosea Tbk. (the “**Company**”) to support good corporate governance.

We believe that an effective Audit, Risk and Compliance Committee (the “ARC Committee”) will enhance transparency within the Company’s internal structure, in order to promote openness and objectivity in addressing issues related to business risks, financial reports and good corporate governance which in turn will improve the quality of decisions at the Board of Commissioners and the Board of Directors levels.

The first Charter of Audit, Risk dan Compliance Committee was first created in November 2009 (previously named the Audit Committee) with the objective of providing a reference to define the role, organization, focus and primary responsibility of the Company’s Audit Committee as well as the membership criteria, periodical meeting implementation and annual work plan.

Due to the development and dynamics of the Company, in May 2016 the Board of Commissioners added the Corporate Governance function to the Audit Committee, which function was previously the authority of the Good Corporate Governance Committee.

In 2018, the Board of Commissioners added the Risk function to the Audit and Corporate Governance Committee, and therefore it was called the Audit, Risk and Compliance Committee.

In 2019, this Audit, Risk and Compliance Committee Charter is adjusting to the resolution on the Extraordinary General Meeting of Shareholders of PT Petrosea Tbk held on 1 March 2019, which was to amend the term of service of the Board of Commissioners and the Board of Directors.

In 2022, in line with Company’s growing focus to sustainability, the Board of Commissioners added the Sustainability Committee to oversee the Company’s sustainability practices, which previously included under ARC Committee duties and responsibilities. Hence, ARC Committee Charter is adjusting to this change to better align the scope and coordination between committees.

This charter will be reviewed and renewed periodically, if so required, to align with any changes and new regulations.
